**Subject:** ESA Reference - Please provide  
**Attachments:** memo\_to\_file\_-\_esa\_section\_7d\_determination.pdf

Isaac/Brent,

Good morning, I hope both of you are doing well....

We the OOC are doing some side bar review and evaluation of the Center for Biological Diversity letter notice for potential suit. In reviewing the related EPA supplemental public documents issued with the 2017 permit, we found a reference that we can not seem to locate on EPA's website.

Specially what we are looking for is the Region 6 "Endangered Species Act Evaluation", dated October 12, 2016. This is reference in the towards the end of the second paragraph of the background section. For ease I have highlighted in the attached document.

Since referenced in a public document, we feel it should be no problem providing this document to us.

Therefore, please provide a copy of this document so when can review.

Thanks and we look forward to hearing from you,

James
